Buffalo Chicken Wings

MEAT

Prep **10 min** Cook **25 min** Total **35 min** Serves **Varies**

Ingredients

- chicken wings
- Frank's RedHot Original Buffalo Wings Sauce

Instructions

1. Lay the wings flat in a single layer in a pan. (If you'd like smaller pieces, cut each wing in half at the joint.)
2. Pour the Frank's RedHot Buffalo Wings Sauce over the wings and spread it around so they're coated.
3. Broil, keeping a close eye on them, until the tops look lightly charred with small brown bubbles forming — not burnt.
4. Take the pan out, flip the wings, add a little more sauce, and broil again until the tops are lightly browned.
5. Switch to bake at 350°F for 10 minutes so the wings finish cooking through.

Tips

- **Watch the broiler:** Broilers vary a lot — stay by the oven. The wings go from brown bubbles to burnt fast.

No quantities were specified in the original (it was spoken/transcribed) — use enough wings to fill a pan in a single layer and enough sauce to coat both sides. Prep time and cook time are estimates; broil time depends on your broiler. — Text submission
